Digitising the accounting and auditing process for Hong Kong practitioners

(Course Code 課程編號: 1319)

Highlights: 課程重點:

Technology is changing the face of auditing by transforming the financial reporting process from day one. Today, providers of modern accounting software have developed solutions that integrate with banks and in-store systems to collect data right from when transactions occur and flows seamlessly through accounting software and other business apps. Not only does this free up time for accountants and auditors; the real-time data also empowers you with insights to provide advisory services.

Join Michelle Kwok from Xero in this sharing session to see these data flows in action and see how 'real-time' auditing is made possible when your practice is digitised in the cloud.

- Learn the fundamentals of cloud technology and how it can benefit your practice
- Discover cloud accounting features and tools that can help you save time, and increase efficiency and accuracy in day-to-day accounting and audit
- Watch a live demonstration of beautiful, easy-to-use cloud accounting software in action and learn what it can do for you

Speaker (s): 講者:

Michelle Kwok
Partner Development Representative, Xero Hong Kong

Michelle is the Partner Development Representative for Xero in Hong Kong. In her role, she helps onboard accounting and bookkeeping firms in Hong Kong and Greater China into Xero's partner programme and helps them become successful partners of Xero. With experience in SaaS (Software-as-a-Service) at various multinational companies including IBM and Yahoo, Michelle is passionate about transforming industries through technology.

To Michelle, a successful practice looks like this: They reap the benefits of going paperless, work more efficiently and create new business opportunities by streamlining workflow and integrating apps that help to automate manual tasks and provide insights.

Michelle is born and raised in Hong Kong and outside of Xero is actively involved in social entrepreneurship.
