### Practical Solutions in Solving Audit Confirmation Challenges for Small-Medium Firms (Course Code 課程編號: 2424)

#### Highlights: 課程重點:

Audit confirmations are a critical element of the audit process, but for small and medium-sized firms in Hong Kong, managing them efficiently and securely can be a significant challenge. This webinar will introduce Confermax, a purpose-built SaaS platform designed to address these specific pain points. We will discuss how Confermax simplifies the audit confirmation process, reduces the risk of fraud, and ensures compliance with standards like HKSA 505, all while improving data accuracy and saving valuable time and resources.

Additionally, we'll cover how Confermax ensures data confidentiality and security through built-in policies, permissions, and advanced features like encryption, so auditors and banks can manage audit confirmations with complete peace of mind.

#### Speaker: 講者:

**Mr. Rony Lau, CPA**  
*Founder, Confermax*

Rony Lau is a Certified Public Accountant (CPA) with extensive experience in the audit industry. He began his career with Deloitte Hong Kong, where he gained a deep understanding of the challenges auditors face, particularly in managing audit confirmations. His experience at Confirmation.com further fuelled his passion for creating innovative solutions that address the inefficiencies, risks, and security concerns inherent in traditional audit processes.

Recognizing the need for a more secure, efficient, and reliable method of handling audit confirmations in the local market—especially for smaller audit firms, Rony founded Confermax. His vision is to provide small and medium-sized firms with a practical and accessible tool that enhances audit quality while reducing operational burdens and ensuring data confidentiality. Under his leadership, Confermax is dedicated to transforming how audit firms manage confirmations, empowering them to meet today's demands with confidence and security.
